ABOUT US

Crafting Your Sports & Play Area

At DC Safe Sports Play, we work diligently to develop designs and products to match world-class quality. With our technical superiority, best-in-class material, and industry knowledge we provide quality material to all our esteemed clientele. Turnkey projects, play ground development, sports courts, walking/jogging tracks, running tracks, squash courts, outdoor fitness and more these are some of our specialties.

Our motto is maximum customer satisfaction and so we have a designing, execution, before and after sales service team to cater to all our client needs. With our in house mash-up of modern machinery and expert craftsmanship we've created innovative, diverse and inclusive play, sports, safety products for children in all age groups.

Our quality speaks bound for our credibility with clients raging from various prestigious developers, sports clubs, indoor & outdoor stadiums, international school, government organizations, universities, colleges, resorts, hotels & many more ...

OUR PROCESS – FROM CONCEPT TO COMPLETION

At every stage, we focus on precision, quality, and your satisfaction- turning your ideas into beautifully finished, ready-to-use solutions.

1. UNDERSTANDING YOUR REQUIREMENTS

Every project starts with a conversation. We take the time to listen, understand your vision, study the site, and learn about your expectations. Together, we define the purpose, usage, and budget to create a clear plan of action. Our goal is to recommend the best possible solutions – ones that blend durability, design, and practicality perfectly.

2. CUSTOM DESIGN & PROPOSAL

Once we know what you're looking for, our design team gets to work. We create layouts and concepts that reflect your preferences and space. You'll receive design options, material samples, and finishes to choose from. We make revisions quickly to ensure everything aligns with your vision. When the design, specifications, and pricing are finalized, we move ahead with mutual approval and excitement.

3. MANUFACTURING & QUALITY CONTROL

With the design locked in, production begins at our in-house facility. Every product is made with care using high-quality materials and advanced technology. Our team follows strict quality checks at each stage – right from raw material selection to final finishing. Only products that meet our highest standards make it to the next step.

4. INSTALLATION & EXECUTION

Our skilled technical team takes over to bring the design to life. Installation is carried out efficiently and safely, following the agreed timeline. We maintain open communication throughout, keeping you informed on progress. Each detail is carefully handled, ensuring a clean, precise, and professional finish.

5. READY TO USE

After installation, we carry out a complete inspection to ensure everything is perfect. The site is cleaned and handed over in a ready-to-use condition. We also provide care tips, maintenance guidance, and post-installation support – so you can enjoy your new space with total peace of mind.

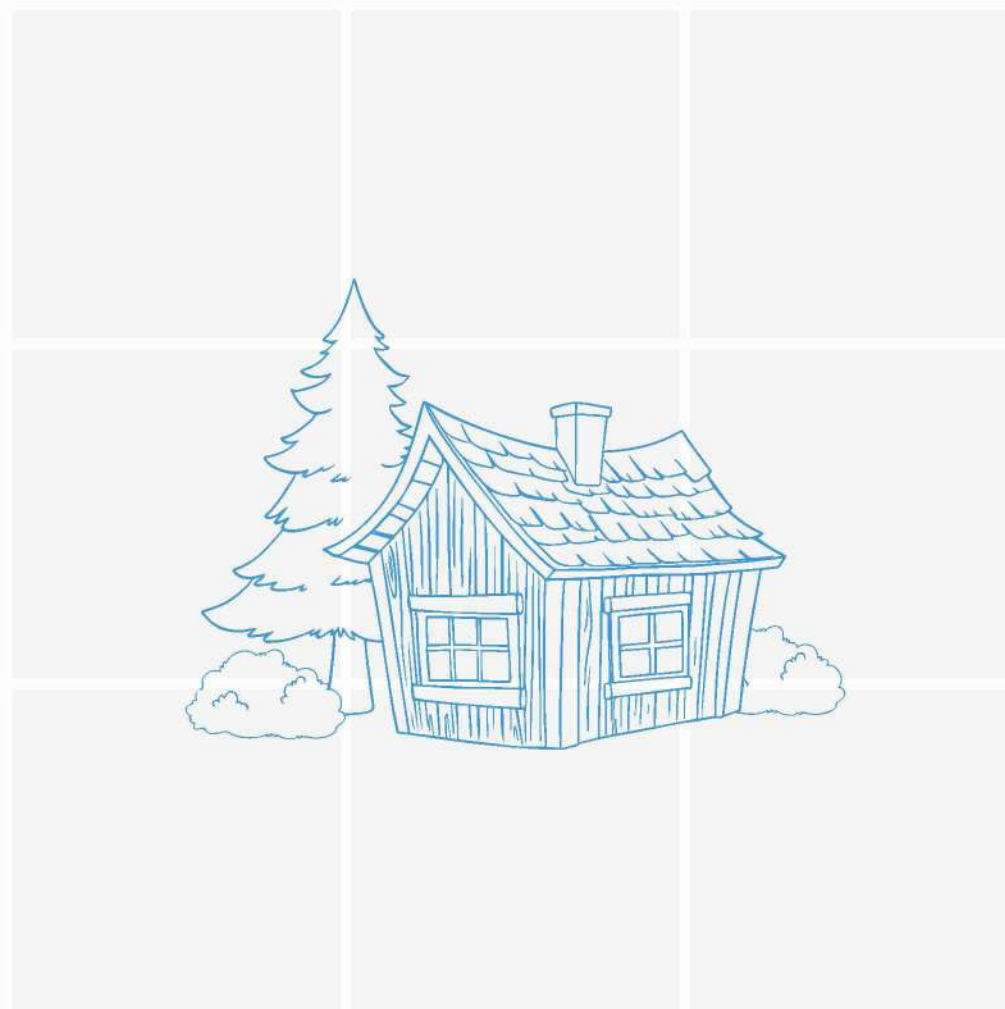

CURATE

CREATE UNIQUE REALISTIC ADVENTURE THEME ENVIRONMENT

DC Safe Sports Play continues to raise the bar with our latest innovation – the CURATE series. CURATE stands for "Create Unique Realistic Adventure Theme Equipment," offering clients the opportunity to bring their visions to life. With this impressive series, clients can collaborate with DC to design their custom play equipment that aligns with their chosen themes. DC keeping the client's vision on priority will then manufacture these themes into reality. This personalized approach exemplifies DC's commitment to create unique and engaging play environments that cater to the specific desires of our clients. CURATE by DC Safe Sports Play redefines play equipment, offering a truly tailored adventure for children of all age groups.

DC PLAY VISTA

DC Play Vista is an innovative play panel system designed to make kids' play equipment more interactive, creative, and visually engaging.

The system combines structural HDPE panels with break-proof engineered glass panels for enhanced safety and durability.

The glass panels are printed using UV-stabilized, fade-resistant printing technology, ensuring long-lasting vibrant graphics.

These printed elements introduce stories, learning concepts, and playful visuals into playground designs.

All materials are weather-resistant and suitable for outdoor environments.

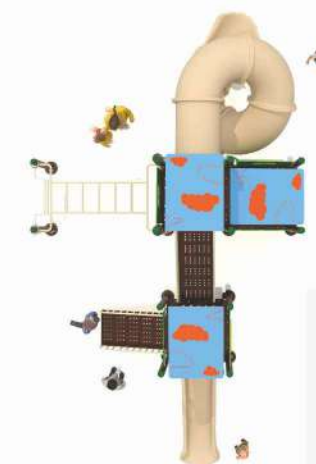

The system is engineered with child-safe edges and impact-resistant components.

Available in various shapes, sizes, and design themes to suit different play structures.

Custom artwork and interactive concepts can be developed as per project requirements.

Compatible with modular playground systems and easy to integrate.

DC Play Vista transforms play equipment into an immersive learning and imagination experience.

EPDM KIDS SAFETY FLOORING

EPDM Kids safety rubber flooring

EPDM Kids Safety Flooring is a seamless, cushioned rubber flooring system designed to create safe, durable, and engaging play areas for children. Made from high-quality, non-toxic EPDM rubber granules bonded with polyurethane binders, it provides excellent shock absorption and slip resistance, helping to reduce injuries during play.

The surface is UV and weather resistant, water-permeable, and suitable for year-round use in all seasons. Available in vibrant, fade-resistant colors and patterns, EPDM flooring enhances the visual appeal of playgrounds while requiring minimal maintenance and ensuring long-term performance.

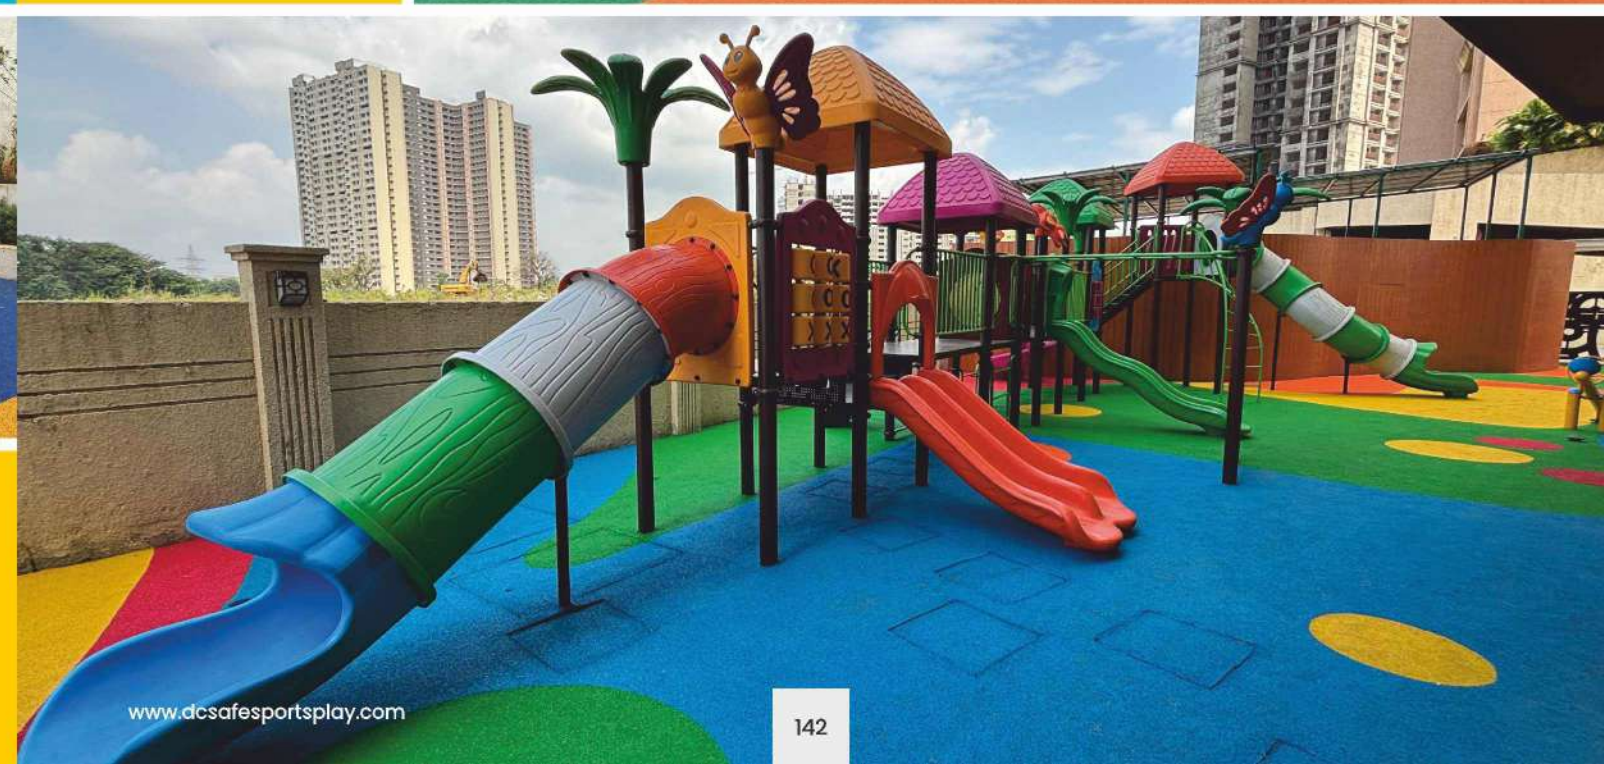

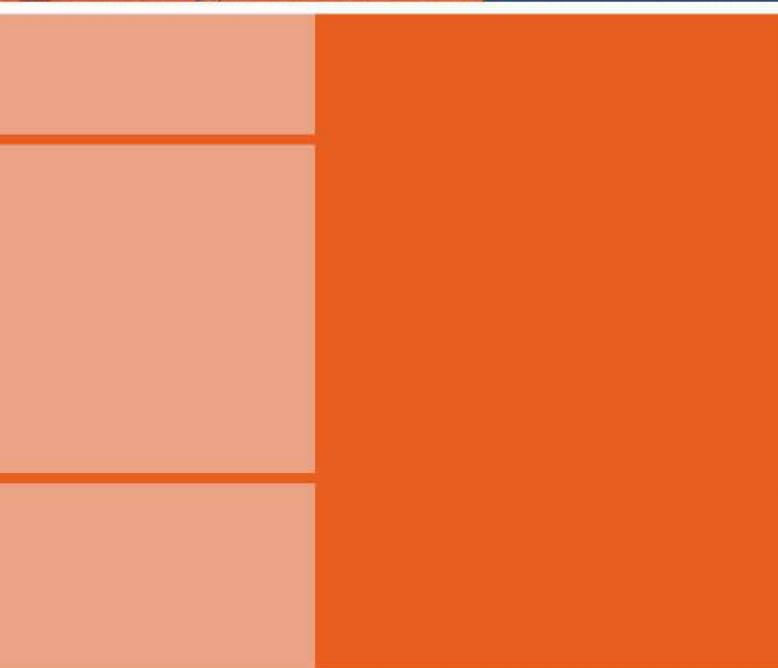

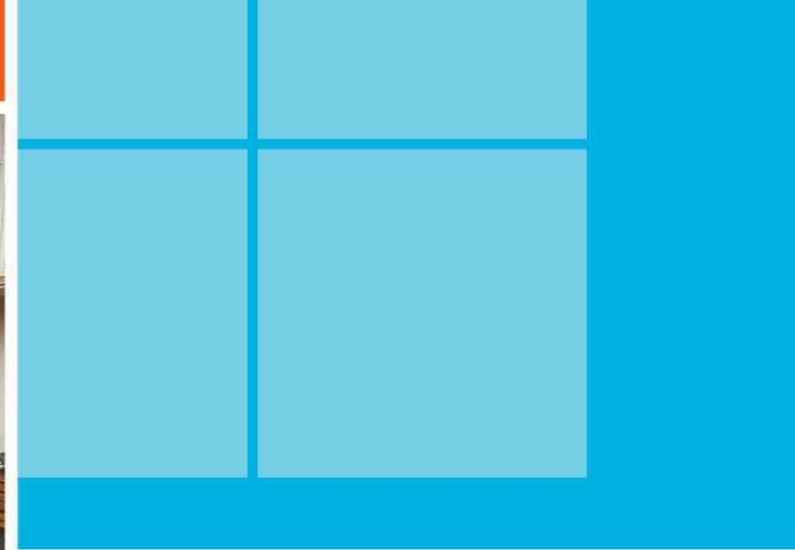

Standard Thickness:

18mm, 24mm, 30mm, 36mm & 50mm

Key Advantages

- High impact absorption for improved child safety
- Seamless, anti-slip and trip-free surface
- Usable throughout the year in all weather conditions
- UV and weather resistant with long-lasting colors
- Water-permeable for quick drainage and drying
- Non-toxic, child-friendly and low maintenance

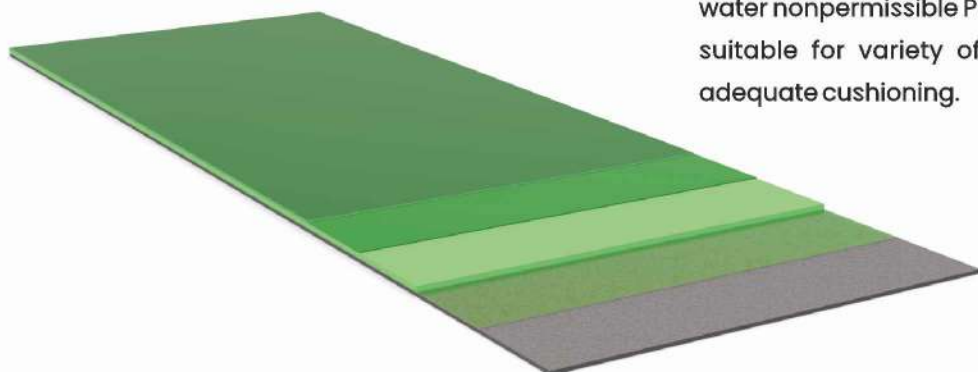

SPORTS COURT FLOORING

SPU COURT FLOORING

Thickness: 3mm, 4mm, 5mm, 6mm, 7mm

Games: Tennis, Volleyball, Handball, Basketball & Badminton

Functionally & aesthetically pleasing our SPU Flooring System is high in strength, durable, UV stable, antiskid & water nonpermissible Polyurethane based sports flooring suitable for variety of indoor or outdoor sports with adequate cushioning.

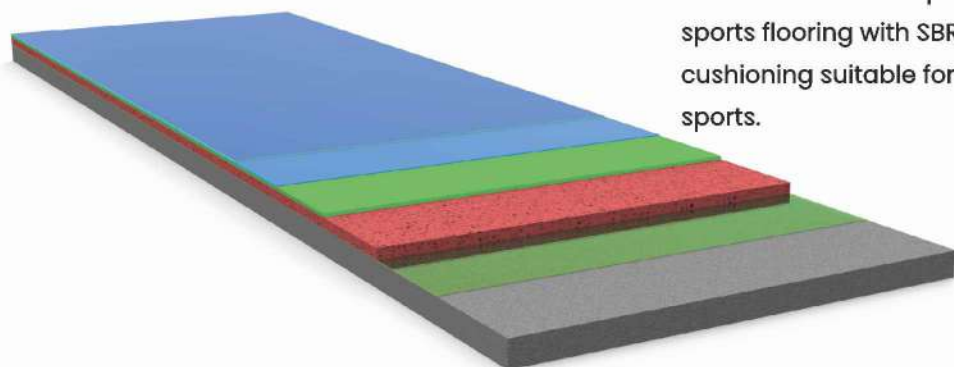

FULL PUR COURT FLOORING

Thickness: 8mm to 10mm customizable

Games: Volleyball, Handball, Basketball & Badminton

Full PU functionally & aesthetically pleasing our Full PUR Flooring System is high strength, durable, UV stable, anti-skid & water on-permissible Polyurethane based sports flooring with SBR granule mixing for added cushioning suitable for variety of indoor or outdoor sports.

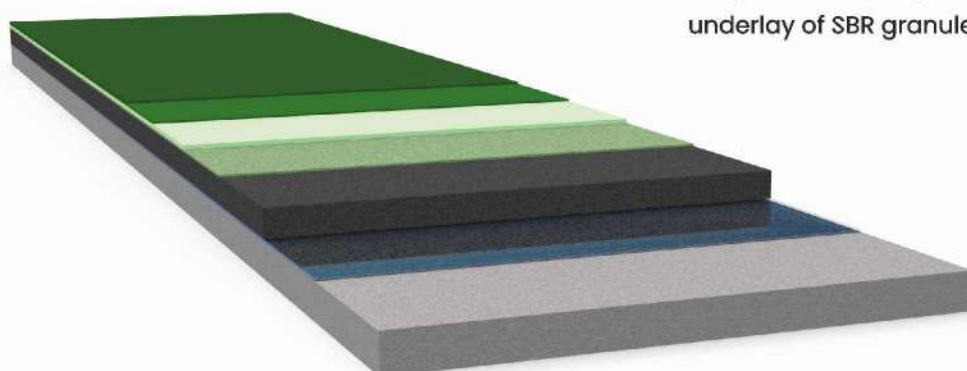

SANDWICH SYSTEM COURT FLOORING

Thickness: 8mm to 10mm customizable

Games: Volleyball, Handball, Basketball & Badminton 61 www.

Functionally & aesthetically pleasing our Sandwich PU Flooring System is High strength, durable, antiskid water nonpermissible Polyurethane base system with underlay of SBR granule for added cushioning.

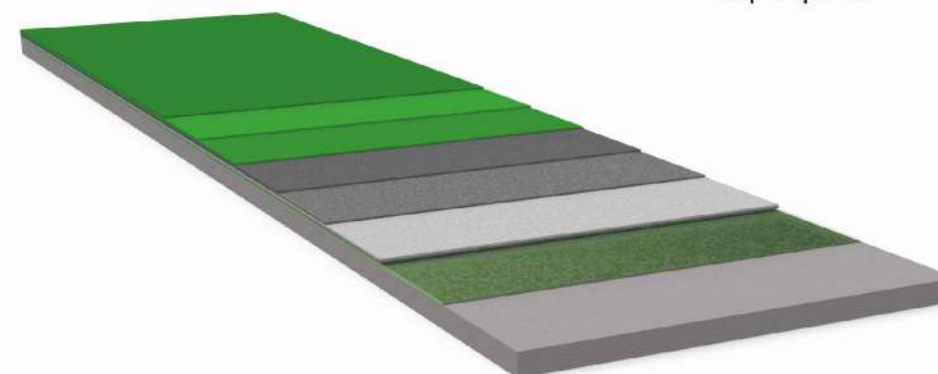

ACRYLIC CUSHIONED COURT

Thickness: 2.5mm - 3mm

Games: Tennis, Volleyball, Handball, Basketball & Badminton

Wet-pour system, weather proof, UV stable, cost effective, anti skid sports flooring with cushion, which is suitable for multiple sports.

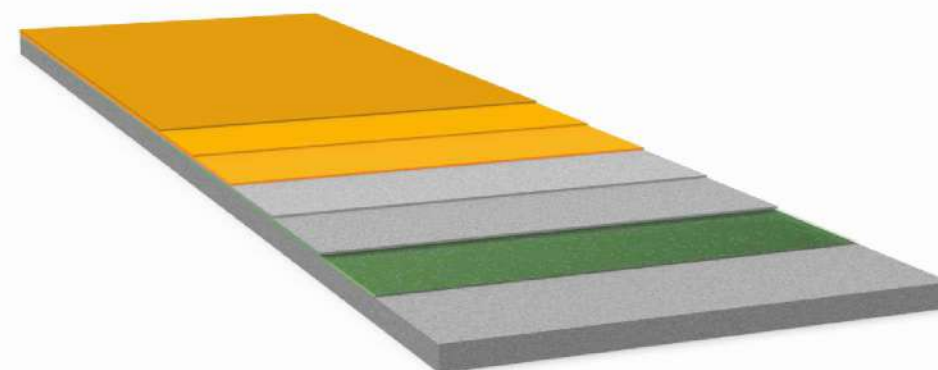

ACRYLIC HARD COURT

Thickness: 1.5mm - 2mm

Games: Tennis, Volleyball, Handball, Basketball & Badminton

Wet-pour system, weatherproof, UV stable, cost effective and antiskid sports flooring suitable for multiple sports.

MULTI-SPORTS CURL GRASS

Thickness: 13mm - 16mm

Games: Volleyball, Handball, Basketball & Badminton

All weatherproof, high density, durable, Multipurpose curl sports turf used for multipurpose sports courts for indoor and outdoor use with or without infill.

FOOTBALL STRAIGHT TURF

Thickness: 50mm - 60mm

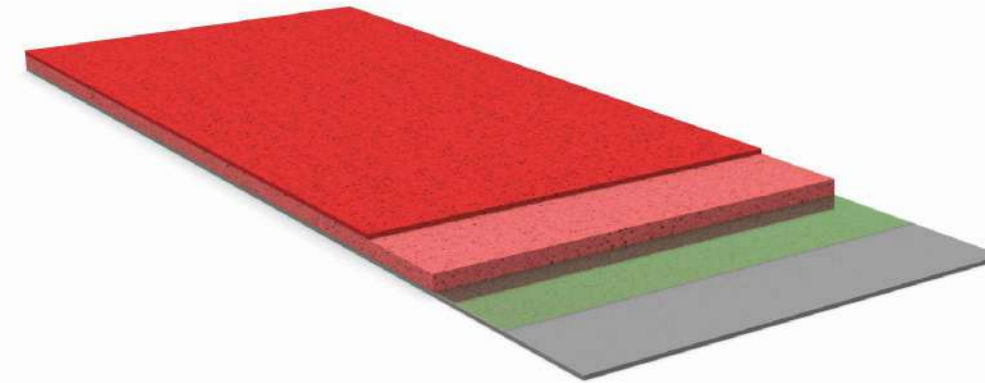

Games: Volleyball, Handball, Basketball & Badminton

All weatherproof, high density, durable, straight sports turf used for indoor or outdoor football or futsal grounds with infill.

RUNNING & WALKING TRACK

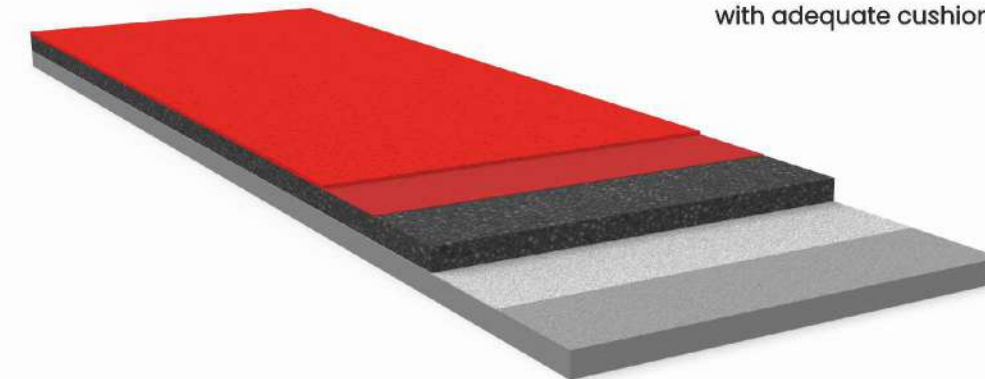

FULL PU WALKING/ JOGGING/ RUNNING TRACK

Thickness: 10mm to 15mm customizable

High performance, all weather resistance, water non-permissible walking track system with SBR cushioned layer covered with top layer of mechanically spread mixture of polyurethane & EPDM.

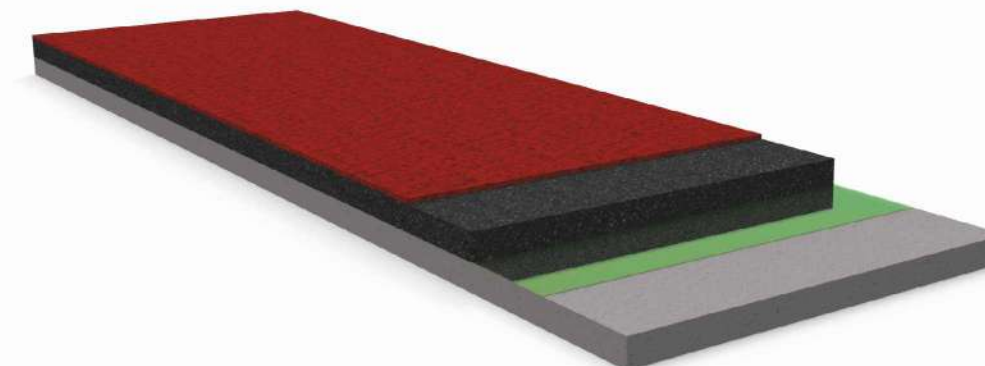

ESPU PRO WALKING/ JOGGING/ RUNNING TRACK

Thickness: 10mm to 15mm customizable

Functionally & aesthetically pleasing our SPU Flooring System is high in strength, durable, UV stable, antiskid & water nonpermissible Polyurethane based sports flooring suitable for variety of indoor or outdoor sports with adequate cushioning.

ESPU ECO WALKING/ JOGGING/ RUNNING TRACK SYSTEM

Thickness: 10mm - 15mm customizable

High performance, all weather resistance, water-permissible walking track system with SBR cushioned layer covered with top layer of mechanically spread mixture of polyurethane & EPDM.

MODULAR SPORTS TURF SYSTEM

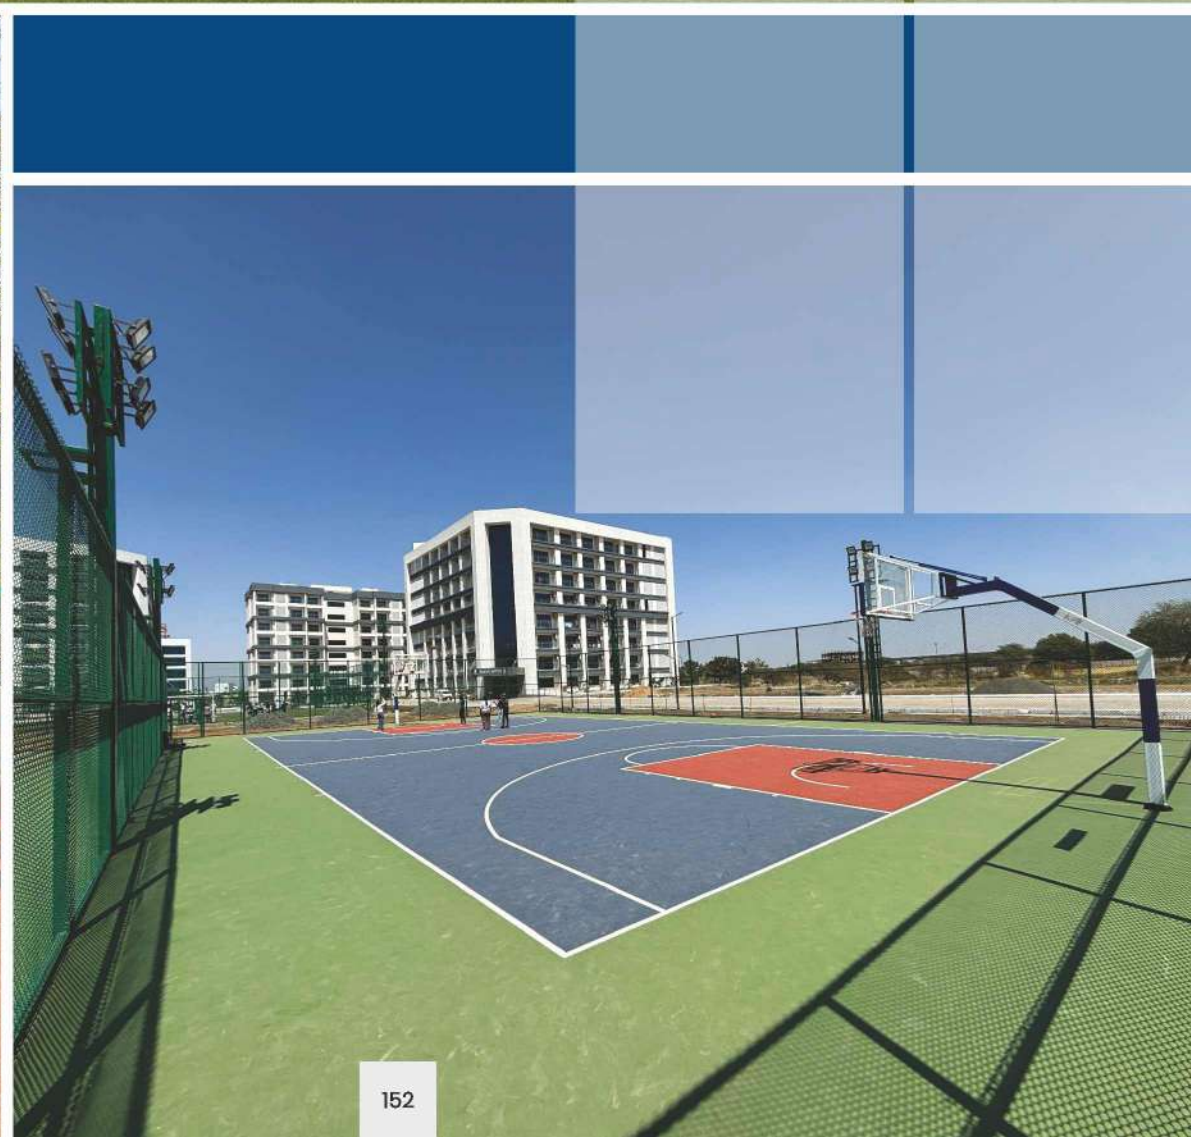

The Modular Sports Turf System is a prefabricated, high-performance solution designed exclusively for sports areas where durability, stability, and quick installation are essential. The system features a prefabricated modular structural assembly, allowing efficient and accurate on-site installation with minimal downtime.

The supporting framework is manufactured using high-quality steel pipes with a powder-coated finish, providing excellent resistance to corrosion, weather exposure, and long-term wear. All structural components are factory-fabricated to ensure precision, uniformity, and consistent quality, resulting in a strong and reliable sports infrastructure.

This modular system is designed to support multiple sports surface options, enabling customization based on the type of sport, level of play, and performance requirements. The modular design also allows easy access for maintenance, replacement, or future expansion, making it a practical and cost-effective solution for modern sports facilities.

Advantages of Modular Sports Turf System

- Purpose-Built for Sports Areas: Engineered specifically to meet sports performance and durability requirements
- Prefabricated Modular Structure: Ensures accuracy, faster installation, and consistent quality
- Powder-Coated Steel Pipes: Superior protection against corrosion and outdoor conditions
- Quick On-Site Assembly: Reduced installation time with minimal civil work
- Multiple Sports Surface Options Available: Customizable based on sport type & performance needs
- All-Season Usability: Suitable for year-round use in all weather conditions
- Low Maintenance Design: Minimizes ongoing upkeep and operational costs
- Replaceable & Expandable: Modular components allow easy repair, replacement, or future modification
- Strong & Stable Construction: Designed for long-term structural integrity and safe sports play

PET PARK EQUIPMENT

At **DC Safe Sports Play**, we believe that every pet deserves a safe and stimulating environment to play, exercise, and thrive. Our premium **Pet Park Play Equipment** is thoughtfully designed to promote agility, fitness, and social interaction for dogs of all breeds and sizes.

Crafted with durable, **weather-resistant materials** and built to the highest safety standards, our equipment includes:

- Agility ramps & A-frames
- Crawl tunnels & weave poles
- Jump hoops & balance beams
- And more customized solutions!

Whether you're outfitting a **community dog park, residential complex, pet-friendly resort, or veterinary facility**, our innovative designs ensure both fun and functionality.

Why Choose DC Safe Sports Play?

- Safe, pet-friendly designs
- Long-lasting materials
- Customization options
- Easy installation & low maintenance

Let us help you create a tail-wagging experience!

Explore our range today and build the ultimate pet paradise.

Frequently Asked Questions (FAQ)

DC Safe Sports Play

1. What products does DC Safe Sports Play offer?

We provide complete play, sports, and safety infrastructure solutions including kids play equipment, EPDM safety flooring, outdoor fitness equipment, running & walking tracks, sports court flooring, and customized recreational systems.

2. Where can these products be installed?

Our products are ideal for schools, residential societies, public parks, townships, institutions, and commercial projects, for both new developments and existing spaces.

3. Are your products safe and durable?

Yes. Safety is our core focus. All products are designed using high-quality, weather-resistant, and durable materials to ensure long-term performance and user safety.

4. Are the products suitable for outdoor use?

Yes. Our systems are UV-stabilized and engineered to withstand varying weather conditions, making them suitable for year-round outdoor use.

5. Can the products be customized?

Absolutely. Multiple design layouts, sizes, colors, and surface options can be offered based on site requirements and client preferences.

6. Do you provide design and installation support?

Yes. We offer end-to-end support including design assistance, planning, professional installation, and post-installation guidance.

7. Are the systems modular or prefabricated?

Yes. Many of our solutions use modular and prefabricated systems, allowing faster installation, better quality control, and ease of future expansion.

8. What maintenance is required?

Our products require minimal maintenance. Routine cleaning and periodic inspection are sufficient to maintain safety and appearance.

9. Are the products suitable for high-traffic areas?

Yes. Our solutions are designed for continuous use and are ideal for high-traffic environments such as schools, parks, and community spaces.

10. How can we get technical details or a quotation?

For detailed specifications, drawings, and customized quotations, please contact the DC Safe Sports Play team.
